

ANNOUNCING A YEAR OF SCIENTIFIC ACTIVITIES AROUND THE WORLD ON MATHEMATICS OF PLANET EARTH

**Partners:**

Research institutes  
Scientific societies  
International organizations  
Scientific journals  
Schools, universities, teachers and researchers associations  
Museums and public institutions

**Activities:**

Scientific activities  
Outreach activities in the schools, the media and the public

Partners from all around the world are invited to join and to participate in this year of mathematical activities. More information and a call for proposals can be found at [www.mpe2013.org](http://www.mpe2013.org)

For information: [info@mpe2013.org](mailto:info@mpe2013.org)

## *A complex planet*

*meteorology and climate | oceans | geophysics | solar systems*

## *A biologically diverse planet*

*ecology | biodiversity*

## *A planet structured by civilization*

*resource management | financial systems | communication and transportation networks | economics | political systems | energy*

## *A planet at risk*

*climate change | sustainable development | epidemics | invasive species | natural disasters*
