The International Association for Mathematical Geosciences (IAMG) is planning to make MPE 2013 a theme of its annual congress IAMG 2013 in Madrid. During this conference there will be sessions on the interactions Mathematics-Geology in all the fields of Geology. Also, there will be a competition of MPE posters on applications of Mathematics in Earth Sciences at different levels, with awards for the best posters:

- High School students
- University students
- Post Graduate PhD students

IAMG edits a glossy scientific journal on Earth Sciences, full in colour and free of charge for authors. We envisage printing a special Monograph dedicated to the MPE 2013-IAMG2013.

The IAMG 2013 congress is organized by Instituto Geológico y
