

The Austrian Mathematical Society (ÖMG), Austria

Math  
2013

The Austrian Math. Soc. plans to organize lecture series and one day workshops for highschool students and to have (at least) a special day of "Math. of the Planet Earth" at their congress in Innsbruck (Sept. 2013) that is organized together with German Math. Soc. Furthermore we plan to publish periodically articles (on topics related to MPE) in high level newspapers. It is also intended to organize symposia together with scientists from related subjects (like physics or geodesy).
