Project

### Portuguese Mathematical Society (SPM)

- The 2013 SPM Summer School will be devoted to MPE2013. This event should include activities in K-12 education that would possibly involve the portuguese Association of Mathematics Teachers (APM - Associação de Professores de Matemática).
- SPM plans to collaborate with CIM (International Center for Mathematics, Portugal) in the organization of two international research conferences on MPE topics.
- Gazeta de Matemática and Boletim da SPM, two regular SPM publications, will feature articles related with MPE2013, including possible portuguese translations of relevant international articles.
- SPM will promote public awareness activities related with MPE2013, in particular with the Open Source Exhibition of Virtual Modules.
