

Appel à
propositions

Fields Institute, Canada

The Fields Institute invites proposals for activities related to the 2013 year of emphasis on the Mathematics of Planet Earth.

Math
2013

www.fields.utoronto.ca

Mathematics plays a key role in many of the processes affecting Planet Earth, both as a fundamental discipline and as an essential component of multidisciplinary and interdisciplinary research. We encourage proposals for events connecting mathematics with areas such as natural disasters, resource management, transportation, energy production and utilization, the World Wide Web, health care delivery, climate change, sustainability, and control of disease and epidemics.
