

## CALL FOR NOMINATIONS ANDRÉ-AISENSTADT MATHEMATICS PRIZE

**Montreal, November 17, 2016** - The Centre de recherches mathématiques (CRM) solicits nominations for the André Aisenstadt Mathematics Prize, awarded to recognize talented young Canadian mathematicians. This Prize celebrates outstanding research achievement by a young Canadian mathematician and consists of a monetary award and a medal.

The recipient is chosen by the CRM's international scientific advisory committee. The prize is generally awarded yearly, although in a given year the decision may be made not to award it. Candidates must be either Canadian citizens or permanent residents of Canada, or hold a tenure-track academic position in Canada. Candidates having their PhD degree conferred in 2009 or later will be eligible for the 2017 André Aisenstadt Prize. The committee may exceptionally consider candidates who have received their degree prior but very near to 2009, if it can be demonstrated that special circumstances, such as parental leaves or other leaves of absence from work, have delayed professional achievements. The recipient is invited to deliver a lecture at the CRM, at a time mutually agreed upon, and to write a brief article on his or her work for publication in the CRM's Bulletin.

The deadline for nominations is March 1, 2017. The nominations should be submitted to the Director of the CRM, by at least two sponsors who are responsible for providing the following information:

- a curriculum vitae,
- a list of publications,
- a cover letter explaining the basis of the nomination,
- up to four reprints,
- and a maximum of four letters of support.

Unselected nominations remain active for two further years if not withdrawn and provided they still meet the Prize eligibility criteria. The nominations can be updated if desired.

Since its creation in 1991, the André-Aisensadt Prize has been awarded to the following (the affiliations are the ones current at the time of the award): Niky Kamran (McGill), Ian Putnam (Victoria), Michael Ward (UBC), Nigel Higson (Penn State), Adrian S. Lewis (Waterloo), Lisa Jeffrey (McGill), Henri Darmon (McGill), Boris Khesin (Toronto), John Toth (McGill), Changfeng Gui (Connecticut), Eckhard Meinrenken (Toronto), Jinyi Chen (UBC), Alexander Brudnyi (Calgary), Vinayak Vatsal (UBC), Ravi Vakil (Stanford), Iosif Polterovich (Montréal), Tai-Peng Tsai (UBC), Gregory G. Smith (Queen's), Alexander E. Holroyd (UBC), Jozsef Solymosi (UBC), Jonathan Taylor (Montréal), Valentin Blomer (Toronto), Omer Angel (UBC), Joel Kamnitzer (Toronto), Marco Gualtieri (Toronto), Young-Heon Kim (UBC), Spyros Alexakis (Toronto), Sabin Cautis (UBC), Louis-Pierre Arguin (Montreal, City University of New York) and Anne Broadbent (University of Ottawa).
