

Luc Vinet, Director of the CRM, reappointed for four years

Montreal, October 19, 2017. - The CRM board of directors have reappointed, with renewed enthusiasm, Luc Vinet as Director of the Centre de recherches mathématiques (CRM) until 2021.

A distinguished mathematical physicist, Luc Vinet has received numerous distinctions throughout his career. This year, he was awarded the grade of Officer of the National Order of Quebec by Premier Philippe Couillard.

The renewal of his mandate as Director of the CRM is well-timed since he will be able to pursue, among other projects, the CRM scientific agenda undertaken for its 50th anniversary.
