

French research visits for CRM members

Montreal, September 14, 2017. - During the French president's visit to Québec in November 2014, the CRNS and the FRQNT signed an agreement to provide financial support to the three CNRS Unités Mixtes Internationales (UMI) based in Québec.

This support will allow the Centre de recherches mathématiques (CRM) to offer its members the possibility of extended stays (2-6 months) in French research laboratories. The costs of such stays will be covered by the CRM. To request support for a visit to a French laboratory which would start between April 1, 2018 and March 31, 2019, please send the details of your request by January 31, 2018. Late requests will be considered as funds permit. Requests should be sent to crmfrance@crm.umontreal.ca.

The request should include:

- An up-to-date CV and publication list;
- A short description of the scientific justification for the visit;
- The proposed dates of the visit.

Requests will be considered in February 2018, and candidates will be notified in early March 2018.
