## PROFESSOR LOUISE POIRIER JOINS THE CRM MANAGEMENT TEAM

---

**Montréal, September 13, 2018.** - In his last budget, the Government of Quebec mandated the CRM to develop in collaboration with CIRANO an initiative to increase numeracy. A budget of one million dollars has been provided in 2018-2019 to that end.

In that context, I am happy to announce that Professor Louise Poirier from the Faculty of Education Sciences of the Université de Montréal, has been appointed by the CRM Board to the position of Deputy Director - Numeracy project for a term of two years that began on September 1, 2019. Dr Poirier is the outgoing Dean of her faculty and is a specialist of mathematics didactics.

I am thrilled to see her join the CRM management team and I am convinced that her scholarship and extended administrative experience will much benefit the project she will steer and the CRM in general.

Luc Vinet  
CRM Director
