

PROGRAMME DU 50^e : NOUVEAUX DÉVELOPPEMENTS EN PROBABILITÉS LIBRES ET APPLICATIONS
« ATELIER SUR LES PROBABILITÉS LIBRES : LA THÉORIE, SES APPLICATIONS »
4 AU 8 MARS 2019

50th ANNIVERSARY PROGRAM : NEW DEVELOPMENTS IN FREE PROBABILITY AND APPLICATIONS
“WORKSHOP ON FREE PROBABILITY : THE THEORY, ITS EXTENSIONS”
MARCH 4-8, 2019

Matrix liberation process

Yoshimichi Ueda *

ueda@math.nagoya-u.ac.jp

I'll report the current status of my project on the matrix liberation process, a random matrix counterpart of liberation process introduced by Voiculescu. The talk will feature its relation to the orbital free entropy that we introduced some years ago.
