Alexei Borodin (MIT)

**TITRE / TITLE :**  
Integrable probability

**LIEU / PLACE :**  
McGill University, Burnside Hall, 805 rue Sherbrooke O., Montréal, salle 920

**RESUME / ABSTRACT :**  
The goal of the talk is to survey the emerging field of integrable probability, whose goal is to identify and analyze exactly solvable probabilistic models. The models and results are often easy to describe, yet difficult to find, and they carry essential information about broad universality classes of stochastic processes.
